OUR VISION

To be brand leaders in the Health and Wellness Industry Worldwide.

OUR PURPOSE

Enriching lives by delivering trusted health solutions that improve wellness and quality of life.

OUR VALUES

Fuelled by a passionate commitment to our purpose, we are strongly guided and grounded by these values which inspire everything we do in both our work and daily lives:

COLLABORATION

We believe that **collaboration** is being open to each other's ideas and benefiting from each other's perspectives because one plus one equals three.

COURAGE

We believe that **courage** is not the absence of fear but the acquired ability to move despite fear.

INTEGRITY

We believe that **REAL integrity** is doing the right thing, knowing that nobody's going to know whether you did it or not.

INNOVATION

We believe that we are living in a dynamic world that is in constant change, hence **innovation** must be part of our DNA and at the heart of our mindsets, products and processes.

EXCELLENCE

Excellence is always the result of high intention, sincere effort, and intelligent execution; it is never an accident! We must be better than who we were yesterday, this applies to us as individuals, teams, and as a tribe!

HUMILITY

In our continuous journey of learning and growth, we embrace the invaluable virtue of **humility**.

LIFEGAIN® GLUTAMINE

Lifegain® Glutamine assist the body during physical stress and trauma.

L-Glutamine is a conditionally essential amino acid (a building block for proteins), found naturally in the body. It is the most abundant amino acid in the body and is involved in more metabolic processes than any other amino acid. L-Glutamine requirements are elevated to essential during periods of disease and muscle wasting typical of physical trauma/stress.

After an intense workout, the levels of L-Glutamine in your body can decrease by 50 %. Supplementation may reduce fatigue or decrease muscle soreness during and after exercise. L-Glutamine has a role in promoting and maintaining intestinal mucosa integrity as these cells use L-Glutamine as the preferred fuel source rather than glucose. This, in turn, helps to support healthy immune function and absorption of nutrients.

REPLACE® JUNIOR

HELPING JUNIORS TO GET THE RIGHT NUTRITION

With your demanding, busy lifestyle as a parent, ensuring that your kids eat nutritious meals can be a challenge. Healthy nutrition requires meal and shopping planning and, let us face it, between work, getting kids to school, after school activities, helping with homework and more, it can be difficult to find the time.

Kids can also be picky or fussy about what they want to eat, especially younger children. Picky eating can result in kids not getting the right amounts of specific nutrients that their bodies need. **Replace® Junior** offers optimised nutrition in a colourful, bright tin that helps kids to be excited about trying this delicious shake.

Replace® Junior is the Meal in a Glass that offers a great solution for busy parents who are looking for a convenient, quick, and easy way to ensure that their children get the nutrients they need to support their well-being. This delicious shake has been specifically formulated for kids from 3 to 12 years of age and is available in three delicious flavours: Vanilla, Strawberry and Chocolate.

With **Replace® Junior** you can relax knowing that your child is getting a nutritional supplement that provides the right mix of proteins, carbohydrates, and fats, as well as, vitamins and minerals to support the needs of your growing child.

Optimum growth and development:

- Very high in Omega-3 fatty acids
